All data used herein has been supplied by the individuals concerned, their children, or their parents; and is the latest data available to the compiler as of the date of this pamphlet.

Preface

This is the first of several pamphlets being compiled to bring up to date the record of the descendants of #7913 Edgar Sheldon. It is being done in part to commemorate the 100th anniversary of the publishing of The Sheldon Magazine (1855-1857) by the Rev. Henry O. Sheldon of Loudenville, Ohio. In this and other pamphlets, his work has been the starting point in almost every attempt to bridge the 100-year gap in the family record.

The second purpose of these pamphlets is to introduce to all SHELDONs a flexible system of records which can be kept by each family, and which will grow through the years keeping the record up to date and thus eliminate the necessity of a vast research project each time it is desired to modernize the Sheldon Genealogy.

The third purpose of these pamphlets is to provide a form and space for the record of those individuals covered in this pamphlet. It is the desire of the editor to keep this record up to date, and it is requested that as time produces new data, the Chairman of the Genealogical Committee, Sheldon Family Association, be kept informed so that it may be properly recorded for future pamphlets in the permanent file of the association.

These pamphlets will take a standardized form so that in the future they may be bound as a book. Since a numbering system has been used to identify individuals, page numbers have been omitted, thus eliminating any problem when several pamphlets are bound as a book.

THE SHELDON MAGAZINE EXTENSION NUMBERING SYSTEM

The numbering system is based on the numbers estab-

lished in the original SHELDON MAGAZINE. Rev. Henry O. SHELDON recorded some 11,250 Sheldon names. He gave each a number based on the page and line of entry in the Magazine; the last two digits indicate the line and the rest of the number, the page. Thus #7913 indicates the 13th line on the 80th page. (The page is always one greater than the number.) The Extension uses the number of the last recorded ancestor as a base. The base is separated from the rest of the number by an "x" which is followed by a digit for each succeeding generation. The generation digit indicates the order of birth. Breaking it down further, #7913x6 means the individual was the 6th child of #7913. Going to the next generation #7913x61 means that the individual was the 1st child of #7913x6, etc. for each generation. An "A" in the number indicates adoption.

It should be noted that each individual has been allotted a fixed space in this pamphlet. This space has been left so that the information may be completed at a future date, and to note that the record of an individual can be put on a standard 3x5 file card. It is hoped that family card-files will be established and the record kept current. These Family Data Cards can be used to exchange family information among SHELDONs. These cards can be purchased from The Genealogical Committee of the Sheldon Family Association.

Questions relative to this pamphlet or the system used herein may be addressed to: Frank E. Sheldon, 18707 Bucknell Rd, Saratoga, Calif. Information on other SHELDONs and SHELDON organizations can be obtained by writing:

The compiling of this pamphlet has been an interesting, as well as an informative, project. It is hoped that others will be inspired to bring the record up to date and keep it so in the future. The compiler wish-

es to apologize for any errors which have slipped into the record and would appreciate being informed of same.

ORIGIN OF THE FAMILIES NAMED SHELDON

The name SCHELADON appears in the records of England soon after the Norman Conquest. In the course of time it was shortened to SHELADON then SCHELDON and finally about 1450 to SHELDEN or SHELDON. Families with these names were found in Derbyshire, Devonshire, and Warwickshire. The Derbyshire families were substantial yeomanry and no use of any Coat of Arms is found until 1660 when Guilbert Sheldon born in Ellaston, County of Stafford in 1598, having risen to distinction in the church, became Arch-Bishop of Canterbury and Primate of all England. Charles the second granted him a Coat of Arms.

As Guilbert died without issue, the right to use the Coat of Arms was granted on Dec. 26, 1681 to Daniel Sheldon of Ham Court. He was the son of Ralph Sheldon of Ellaston, a brother of the former Arch-Bishop. (See p. 371, Vol. 1, new series *Miscellanea Genealogica et Heraldica*.) This Ralph Sheldon must not be confused with the progenitor of our family, Ralph Sheldon of Ashford.

Early records of persons called Scheladon, Scheidon and Sheldon appear in Bakewell, Derbyshire, in the reigns of Henry the third (1216-1272) and Edward the first (1272-1307). These records are in the Archives of Haddon Hall, built in the 15th century. Richard De Scheladon of Monash in Bakewell, County of Derby, born about 1385 is the earliest member of the family given in the SHELDON PEDIGREE of ten generations entered in

the records of Derbyshire in 1662.

About 90 percent of the manuscripts and genealogies compiled by SHELDONS who have lived in America, tell of three SHELDON BROTHERS, Isaac, John and William who sailed from Weymouth Harbor, England, in the good ship, John and Mary, sometime between 1628 and 1634. They landed in Dorchester, Mass., later separated in Billerica, Mass., Isaac going west into Mass., John south into Rhode Island, and William north to Maine. This story has many variations, few of which can be substantiated by recent research and study of the early records.

Most genealogists now concede that the two years of research in England made by J. Gardner Bartlett in 1920-1921 for #8538x1 Frank Merritt Sheldon of Newton, Mass. has supplied the answer to the problem of the first Isaac, who was documented in the Sheldon Magazine and many other manuscripts, as born in England about 1595. He was supposed to have sailed for America about 1634, and lived in Billerica, Mass. and Windsor, Conn. with his 5-year-old son #5, Isaac. No proof that this first Isaac ever lived in America has been discovered and he is often referred to as the Phantom Isaac.

There is, however, proof that there was a Ralph Sheldon of Ashford in the parish of Bakewell, County Derby, born about 1605 who married a Barbara Stone (the same person who was supposed to have been the wife of the first Isaac in the story). This Ralph on Jan. 10, 1650 took out a license to pass beyond the seas. No record of this Ralph appears again anywhere. He may have died upon the sea or perished in it. This Ralph had 3 sons, Isaac, Samuel and Solomen. The last 2 have records in England. There is no record of Isaac other than in the will of his grandfather dated June 10, 1651, in which he was to receive a legacy of 8 pounds. This amount was much less than the other brothers received; this fact leads to the thought that the family, not hearing from their father, Ralph, the inheritance of

Isaac or the part available, was granted him to enable him to go to America and ascertain what had happened to their father.

In Windsor, Conn , can be seen today, an original order of the Selectmen at a meeting of the townsmen on Sept. 13, 1652. It reads as follows:

"It is assented yt Isack Shelden and Samuel Rockwell shall keepe house together in ye house yt is Isacks, so long thay cary themselves soberly and doe not intertayne Idel persones, to ye evell expenc of time, by night or day" (Windsor, Conn., Town Acts 1650-1714, filio 11.)

This is the first time the name Isaac Shelden is found in print in America and he becomes the progenitor of the Isaac branch of the Sheldon Family in this country setting his course westward as in the story.

Proof of the identity of #5 Isaac Sheldon as the son of Ralph Sheldon is fully outlined in the 25-page booklet "The Sheldons of Derbyshire and of New England" by J.Gardner Bartlett, Boston 1926. Dau. of & () Baker of Wash. Co. Ia.

B. - -1831 at New Castle, Pa.

D. 9- -1882 in Denver, Colo. Bur. Mt. Ayr, Ia.

Biog. Notes: Edgar grew up on the farm, attended the country school, later going to Wesleyan Electric Institute, the predecessor of Hiram College, where he was a fellow student and friend of James A. Garfield. For many years a letter from President Garfield was in the possession of the family, a reply to one Edgar had written congratulating him on his election to the presidency.

Edgar first went to Washington Co. Ia. probably to visit his sister, Cornelia Watterman, in 1852 or 1853. In the latter year he made a trip on horseback to look over the country in Ringgold County. In 1854 he returned and purchased a quarter section in Tingley Township from the government at \$1.50 an acre. He then went back to Washington Co. and married Mathilda Baker. The marriage ceremony was solemnized in the home of the father of the Hon. C. C. Bosworth, where she was employed.

It was about this time that a remnant of the Pottawatomie Indians were roaming over the prairies of southwestern Iowa and had come into the counties of Ringgold and Union. It was rumored that an Indian had killed a white settler in Sand Creek Township of Union County. Not daunted, he and his bride pushed from Fort Chariton to build their home, the second in Tingley Township, where he raised his family and lived until the death of his wife which occurred on a trip they were making to visit their sons in Colorado.

The farm was always known as the Sheldon Place and remained in the family until sold by his son, Henry Clay in 1919.

His splendid education equipped him for leadership in this new country. He was a member of the first board of County Commissioners and was chosen as the

first Superintendent of Education in Ringgold County. He served as County Surveyor from 1864 to 1890 when that office was one of great importance. Upon the insistence of his friends and neighbors, he ran for County Auditor and served from 1890 through 1894, when he declined to be a candidate for re-election. He was not a man to seek offices and such honors came to him on the insistence of his friends and acquaintances.

He was a very competent carpenter, building two frame houses on his farm, the first one having burned in 1872. He always had a very complete set of carpenter's tools and kept on hand a supply of oak and walnut lumber from which he fashioned most of the coffins used in the county the first 25 years of his residence there, for which he received no pay.

In 1895 he decided to return to the scenes of his early manhood in Ohio. In 1896 he married Mrs. Martha (Bestor) Sheldon a cousin by marriage. They lived in Garrattsville, Portage County, Ohio, until the death of Mrs. Sheldon in 1911, when he again returned to Ia. to live with his son, Frank, at Mt. Ayr, not far from his old home, owned by his son, Henry Clay Sheldon.

He was a very constant reader but was deprived of this joy in the last 3 years of his life due to failing eyesight which left him totally blind. This also brought to an end his gardening activities. His record yields were often the envy of his neighbors and a great satisfaction to him. His mind remained strong and clear to the last, and no person could discuss pioneer days in Ringgold County and the early history of the nation better than he.

The end came 3 days before he would have reached his 92 birthday when he tripped and fell in the home, the shock of which he was not able to survive.

It is to such stalwart pioneers as his father, Simon, in Ohio, and he, in Iowa, who endured the hardships which only strong physiques with alert minds could survive. Such men built the foundations of this Republic which today are being slowly chipped away by the soft disciplines and effortless thinking of their

descendants. These are the sole reasons why many clear-thinking students of economics and history predict that what we call the backward nations will outstrip us in industrial output as well as the "Will to do and to accomplish."

Biog. Notes: *Edna and Harry Laird were the children of Edward Parker and Lillie Belle (Merritt) Laird of Ringgold Co, Ia. Edward Laird and Frank E. Sheldon were close personal friends and business associates. After the death of Edward Laird in 1907, Frank Sheldon and his wife accepted the responsibility of raising the 2 children. Emaline and Blanche Johnson were the children of James and Matilda (Howard) Johnson of Near Mt. Ayr, Ringgold Co, Ia. Frank Ernest Sheldon was barely 16 years of age when his mother died while on vacation in Colo., leaving 7 boys still living on the home farm about 6 miles from Tingley, Ia. His father had for many years acted as Postmaster for this village but when the railroad came through the town in 1882 the general store there took on this responsibil-

ity. Frank was employed for 6 months in organizing the work for the new Postmaster. It was his first job off the farm. In 1890 with no schooling except what the country school of that period afforded, he secured a job with Allyn Bros. of Mt. Ayr, operators of a private bank, Farm Loan and Real Estate Business. After 2½ years, he left them for work in Nebraska. Ten months later Allyn Bros. offered him a third interest in the Farm Loan and Real Estate end of the business if he would return and take up his old duties. He accepted their offer, remaining with them 22 years. In 1912 he engaged in the same type of business for himself. Three years later he bought the entire business of Allyn Bros. and organized the Mt. Ayr State Bank, which he served as President for 22 years. He sold the bank in 1937 and at 71 years of age retired from all active business.

He and his wife have spent considerable time in traveling, visiting at one time or other every state in the union as well as Cuba, Mexico, and Canada.

He served 4 years in the Iowa State Legislature and was on the Board of Directors of the Iowa State Fair for 37 years, refusing several times the Presidency of the Board.

While Mr. and Mrs. Sheldon were never blessed with children of their own, they took into their home 3 girls and a boy as their own. In 1953 they moved to Saratoga, Calif. to be near one of their adopted daughters, and Frank, at 90 years this October (1956) seems fit to surpass the 92 years of good habits, good health and good service to his friends and neighbors which was remembered so well about his father, Edgar Sheldon.

SHELDON MAGAZINE EXTENSION

INDEX CORRECTIONS ADDITIONAL DATA of the 1956 edition

#7913 Edgar and Mathilda (BAKER) SHELDON
of
MOUNT AYR IOWA

IMPORTANT NOTICE TO SEARCHERS

A-----signifies an adoption

*-----see explanation #7913X6

The identification numbers used in this "INDEX" are not necessarily permanent numbers assigned to a particular person. In many cases they are only a guide to information concerning the person indexed.

All "HEADS OF FAMILIES" are listed in numerical order. Biographical and other data on persons not shown as "HEAD OF A FAMILY" prior to 1957 will be found with the family into which they were born. Should a number sought, not be found in its logical place, disregard the last digit in this number and you will find the data under the remaining or new number

Note that there are four columns containing data in every family, see page 7-----#7913 Edgar SHELDON and Mathilda BAKER for an example.

First column, Identification number and given names.

Second " Year of birth.

Third " Place of birth.

Fourth " Residence, usually where the person mentioned lived the greater or more eventful part of his life.

For CORRECTIONS and some additional data, see last page of this "INDEX".

NOTICE

Genealogical and Biographical data on all the names in this "INDEX" are in the files of the GENEALOGICAL COMMITTEE, SHELDON FAMILY ASSOCIATION.

Inquiries are invited.

Address all correspondence to LELAND L. SHELDON, 30 Concord Place, Snyder 26, New York, until August 1958. After that date the Committee Chairman's name and address can be obtained by writing and enclosing a stamped envelope for your reply, to any of the following,

Curator, Firelands Museum, Norwalk, Ohio.

Curator, Memorial Hall, Deerfield, Mass.

Custodian, Old Indian House Memorial, Deerfield, Mass.

Curator, The Sheldon Museum. 1 Park Place, Middlebury, Vermont.
